

# HAROLD WILSON TELLS TSR2 WORKERS

---

## YOUR JOBS ARE GUARANTEED UNDER LABOUR

---

### LABOUR WILL NOT CANCEL THE TSR2.

Amery knows he will not be Minister of Aviation after next Friday. His lie about the TSR2 is a political gambler's last desperate throw to keep his Parliamentary Seat in Preston North.

Harold Wilson himself nailed this lie in Preston last June when he said he foresaw a "long and useful life for this magnificent aircraft in a conventional role."

Who are you going to believe? A discredited Tory Minister - or your next Prime Minister?

### LABOUR HAS BIG PLANS FOR THE AIRCRAFT INDUSTRY.

Only Tory muddle and stop-go policies have prevented this industry playing its proper role.

Labour's Plan calls for an industry working at full capacity. Labour will EXPAND our highly skilled aircraft engineering teams. They will be central to our export drive.

Under Labour's Plan, your skill will be at a premium and overtime (not short time) will be the likely order of the day. Labour is confident that our aircraft workers will rise to the challenge of turning out aircraft in really large numbers for a ready sale in the developing nations of the world.

### THERE IS A GREAT FUTURE FOR THE BRITISH AIRCRAFT INDUSTRY — UNDER A LABOUR GOVERNMENT
